We assist to the birth of a special category of scientists, radically different of its predecessors: ISAC NEWTON, LORD KELVIN, JOHANNES KEPLER, JOHN DALTON, MICHAEL FARADAY, BLAISE PASCAL and many others, that never disclaimed their profound belief in God and the biblical origin of the universal cosmology.

Founders of the modern scientific thought, those listed above, never afforded the scientific “luxury” to deny the existence of God, as STEPHEN HAWKING has affirmed, saying that: “The Universe was not created by God, but exists due to the physical laws”. But physical laws are themselves a product of the divine creation and THE HUMAN BEING benefits of a knowledge that the CREATOR wanted to allow as the BIBLE shows us in the countless biblical chapters and verses.

Science was given to THE HUMAN BEING by God’s benevolence at the beginning of the creation of human being:

“Let us make mankind in our image, in our likeness.”

GENESIS –OLD TESTAMENT

Before creating THE HUMAN BEING as being, God decided his right and power to rule the entire TERRA and al the terrestrial creatures.

The Divine judgment has been accomplished by the tri-dimensional creation of the Universe that generates fundamental laws and well determined by the very beginning. When we say “beginning” we understand that the space, the material and the time have had a static moment pre-existing the creation of the Universe in which we exist. The static moment has no another meaning than planning or design the stages for the conduct of the divine creation and preceding this moment, there is the notion of purpose and justification of the effort for the creation of the Universe.
