Twenty years ago, the Scorching purged the world of everything green and living. Now the race is on to find the technology ancient Mayans left hidden for future generations--before Gordon Trundman and his martial law find it first. Kip Jensen lives two lives. By day she collects trinkets from the vast wreckage of humanity, searching for clues to the past. By night she is ravaged by visions through different eyes. She has stumbled into a world of secrets, lies, and intrigue--a world her Grandfather left behind before she was born. The Resistance wants her to solve the mysteries of the universe. The Government wants her because of her dreams. She just wants to unlock the doors of her history--and get a good night's sleep without waking up to gunshots. Not everyone can get what they want.
