## Most Secret War (Penguin World War II Collection) R.V. Jones

Reginald Jones was nothing less than a genius. And his appointment to the Intelligence Section of Britain's Air Ministry in 1939 led to some of the most astonishing scientific and technological breakthroughs of the Second World War.

In *Most Secret War* he details how Britain stealthily stole the war from under the Germans' noses by outsmarting their intelligence at every turn. He tells of the 'battle of the beams'; detecting and defeating flying bombs; using chaff to confuse radar; and many other ingenious ideas and devices. Jones was the man with the plan to save Britain and his story makes for riveting reading.
