Spanning more than 500 years, this illustrated book covers the rich history of Christianity in Latin America. The authors use an analytical framework as they describe the institutional religious history for the period covered in that chapter, providing the context to look at other concurrent though non-institutional developments within Christianity. Each section includes sources that look at the way Christianity manifested and continues to manifest itself in the life of Latin American society, including its women, its enslaved and indigenous populations, and the modern-day marginalized sectors.
