Shifted Book 9

Brendan Woodland is a genius when it comes to technology, but someone or something is sabotaging the cameras he has placed on the edge of town. Fixated on the ghostly female image he captured on the night his sister-in-law was attacked, he is determined to find out who she is.

Is she hiding?

Is she injured?

Is she even real or just some apparition haunting a place that has been rumored to be haunted?

On the night of the full moon pack run, Brendan decides to move the cameras in hopes of catching another glimpse of the woman that haunts his thoughts. With the pack occupied, no one should be at the construction site, but someone is there. Hidden among the last of the ruined shacks that mar the land is something

Brendan didn't expect to find.

His future.
