## **Urban Air Quality Management: Coordinating Transport, Environment, and Energy Policies in Developing Countries (World Bank Technical Papers)** Magda Lovei, Masami Kojima

'Urban Air Quality Management' examines the contribution of vehicles to urban air pollution which is a growing problem in many cities in developing countries. It evaluates the priorities for air quality management programs, and reviews national, municipal, and World Bank experience with pollution-reduction efforts. This book draws lessons from this assessment and offers recommendations for priorities in developing coordinated assistance strategies in the environment, urban transport, and energy sectors.
