The New Illustrated Book of Development Definitions Harvey S. Moskowitz, Carl G. Lindbloom

The indispensable book for every planning practitioner, administrator, student, or litigator! With nearly 1,800 definitions of planning, zoning, and related terms, this is the *backbone* volume for every planner's library.

This invaluable resource standardizes in one handy reference all the key terms used in zoning, subdivision, site plan, and environmental ordinances. The definitions are designed to be used directly in ordinances with little or no change. The more complex terms are clarified in commentaries and annotations that provide pertinent legal background and explain how the definitions may be used in ordinances.

This is an entirely new and completely updated edition of the classic *Illustrated Book of Development Definitions*. Completely new entries cover the most recent land-use and environmental legislation.

Written and illustrated by two professional planners with more than 70 years of combined experience in the practice of planning and zoning, this is a basic working tool and required reference for everyone involved in land development planning and regulation.
