## **Music and Technologies** Darius Kucinskas

Based on the conference held in Kaunas, Lithuania, 2011, the book Music and Technologies aims to augment discussion within the field of interdisciplinary music research developed currently at such important forums as the CIM and the ISMIR. The book consists of a collection of articles written by musicians and computer scientists, educators and mathematicians from all over the world. The main contemporary ideas in the field of music technologies are explored - estimating the process of automatic cognition, reconstruction and simulation, measurement and re-creation of different aspects of music practice - always with sound and its notation or scoring uppermost in the investigations.
